## **VISION OF THE INSTITUTION**

To make this Institution the unique of its kind in the field of Research and Development activities in this part of world.

## **MISSION OF THE INSTITUTION**

To impart highly innovative and technical knowledge to the urban and unreachable rural student folks through "Total Quality Education".

## **QUALITY POLICY**

Committed to impart Quality Technical Education imbued with proficiency, human values and continual improvement.

## DEPARTMENT OF INFORMATION TECHNOLOGY

### VISION OF THE DEPARTMENT

To make the department of Information Technology the unique of its kind in the field of Research and Development activities in this part of world.

### MISSION OF THE DEPARTMENT

To impart highly innovative and technical knowledge in the field of Information Technology to the urban and unreachable rural student folks through Total Quality Education.

### PROGRAMME EDUCATIONAL OBJECTIVES (PEOs) [REGULATION 2017]

**PEO 1:** Graduates of the programme will exhibit expertise in technical knowledge by applying distinctive skills in various fields of Information Technology

**PEO 2:** Graduates will become pioneers in the field of IT by working collaboratively and providing solutions to meet societal needs through persistent learning

**PEO 3:** Graduates will be able to adopt innovative practices and contribute towards research and technological development in the field of IT through Total Quality Education.

### PROGRAM EDUCATION OBJECTIVE (PEOs) [AUTONOMOUS]

**PEO1: Technical Knowledge :** Graduates will be able to identify, analyze and create solutions for real life, industrial and societal needs by applying the principles and practices of Information Technology.

**PEO2: Teamwork & Ethics :** Graduates will be able to collaborate effectively and ethically in a multi-disciplinary team as a member &/ as a leader.

**PEO3: Lifelong Learning :** Graduates will be able to adopt the contemporary technologies in the field of Information Technology to provide solutions for challenging environments.

## **PROGRAMME SPECIFIC OUTCOMES (PSOs) [REGULATION 2017]**

Engineering Graduates will be able to:

**PSO 1:** Design and develop applications in the field of Information Technology by applying the knowledge acquired from Computer Organization & Engineering, Networking, Software Engineering & Programming, Data Analytics & other allied topics.

**PSO 2:** Demonstrate an ability to analyse, design, and develop software solutions to cater the needs of diversified business sectors.

## **PROGRAM SPECIFIC OUTCOMES (PSOs) [AUTONOMOUS]**

Engineering Graduates will be able to:

**PSO 1:** Demonstrate technical and interpersonal skills to design and develop IT enable solutions to meet the real time industrial and societal needs.

**PSO2:** Exhibit an ability to adapt to the evolutionary changes in computing.

## **PROGRAM OUTCOMES (POs)**

Engineering graduates will be able to

**PO1: Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

**PO2: Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

**PO3: Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety and the cultural, societal, and environmental considerations.

**PO4: Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and

synthesis of the information to provide valid conclusions.

**PO5: Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

**PO6: The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

**PO7: Environment and Sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of and need for sustainable development.

**PO8: Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

**PO9: Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

**PO10: Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

**PO11: Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

**PO12: Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

## **ABOUT THE DEPARTMENT**

Information Technology is one of the most dynamic fields in the modern world. Information Technology or “InfoTech” evolved when computing and communicating technologies amalgamated. It prepares the students to meet the technical demands of business, government, healthcare, military, education, and other organizations. Information Technology is used in almost every sphere of profession, making the process much easier, by developing competent and effective solutions to real life problems. IT sector is growing at fast pace and creating ample opportunities in India and abroad for deserving candidates having employable skills. Department of Information Technology was established in the year 2001 and has 9 vibrant and well qualified teaching faculty members expertise in various fields of Information Technology who exerts dedicated work to produce high caliber technocrats. Of them, three have completed their doctoral degrees and three of them are pursuing their doctoral degrees. The objective of the department is to prepare the students to face challenges in the changing world. IT Professionals will find their career in various key areas like Artificial Intelligence, Augmented Reality, Data Analytics, Networking, Data Management, Multimedia and Computer graphics, Communications, Web Technology, Software Designs, Management and Administration of Systems.

## **HEAD OF THE DEPARTMENT**

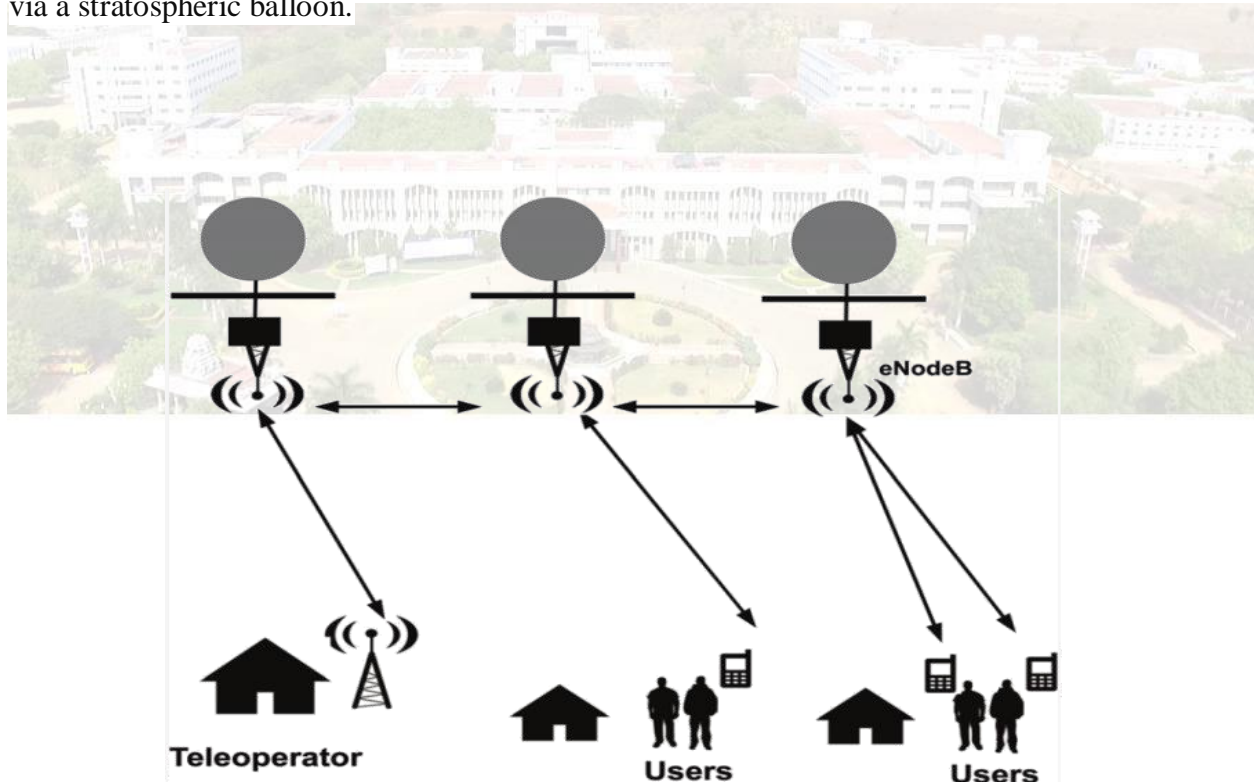

Dr. P. Subathra Heads the Department of Information Technology since August 2015. She received her Doctorate in Philosophy in the field of Information and Communication Engineering from Anna University, Chennai. She completed her PG in Computer Science and Engineering in 2001 & UG in Electrical and Electronics Engineering from Madurai Kamaraj University, Madurai in 2000. Her area of interest includes Networks and Network Security. Under her guidance, one scholar has completed Doctoral Degree. Also she is guiding one research scholar under Anna University, Chennai. She has published around 10 international journals and conferences for her credit. She has given guest lecture in various institutions on Network Security, Soft Computing and IoT.

## KNOWLEDGE ENRICHMENT

### PROJECT LOON

#### Expanding internet connectivity with stratospheric balloons

Billions of people across the globe still don't have reliable, affordable access to the internet. Loon was a radical approach to expanding internet connectivity. Instead of trying to extend the internet with traditional ground-based infrastructure like fiber optics cables or cell phone towers, Loon took to sky with a network of balloons. Loon's balloons traveled along the edge of space to expand internet connectivity to rural areas, fill coverage gaps and improve network resilience in the event of disaster. The Loon team started out flying early prototypes through California's central valley to see if the idea had promise. In 2013 the team found some friendly New Zealanders who were the first in the world to connect to the internet via a stratospheric balloon.

In 2017, when flooding in Peru and a major hurricane in Puerto Rico knocked out critical ground infrastructure, the Loon team navigated balloons to the disaster regions and provided emergency connectivity to hundreds of thousands of people.

The Loon team had a lofty goal: designing a balloon that could last for hundreds of days in the harsh conditions of the stratosphere, where winds can reach 100km/hour and temperatures and pressures can drop to 90 degree Celsius all while delivering constant connectivity. The team spent years refining their designs, and eventually set a record with a balloon that flew more than 300days before it came down to Earth.

Despite Loon's extraordinary technical progress, SoftBank corp stated a plan to use sky craft, rather than balloons, to provide connectivity in emerging markets and more remote areas where physical networks are scarce.

## VISUAL CRYPTOGRAPHY

Visual Cryptography is a cryptographic technique which allows visual information (pictures, text, etc.,) to be encrypted in such a way that the decrypted information appears as a visual image.

One of the best known techniques has been credited to Moni Naor and Adi Shamir, who developed in 1994. In this, they demonstrated visual secret sharing scheme in which an image is broken into  $n$  number of shares. For instance, in Figure 1 the secret image is divided into 2 shares.

Figure 1: Visual Cryptography

The person with all the  $n$  number of shares only can decrypt the image. The person with  $n-1$  also cannot decrypt the image other than this secret sharing scheme  $k$  out of  $n$  visual cryptography scheme is also there. In here, only  $k$  shares are need for decrypting the image. In halftone visual cryptography, cryptography the shares are broken as dotted pixels. There are various schemes for RGB images, gray scale images and black & white. Many researchers are going in the field of visual cryptography some of its applications are secret communication, copyright protection and document authentication.

## 10 INTERESTING FACTS OF TECHNOLOGY

1. QWERTY keyboard was designed to slow down the typing speed
2. Russia built a computer that ran on water: in 1936
3. The first computer mouse was called „X-Y Position Indicator for Display Systems“
4. Wikipedia is maintained by thousands of bots
5. You can visit the world’s first webpage even today -  
<http://info.cern.ch/hypertext/WWW/TheProject.html>
6. Apple once forayed into the apparel business
7. Original name of Microsoft Windows was “Interface Manager”
8. NASA’s internet speed is **91 GB per second**

9. The First Apple Logo

10. Amazon Alexa stores your conversations with the device

# GUEST LECTURES

## CARRER GUIDANCE

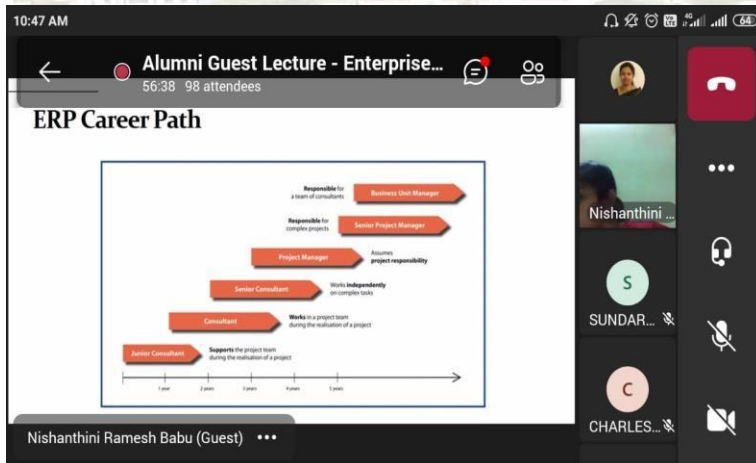

### Resource Person:

Er.J.Sivaguru (**Alumni**)  
Assistant System Engineer,  
TCS, Chennai

**Date** :25.07.2021

## ENTERPRISE RESOURCE PLANNING

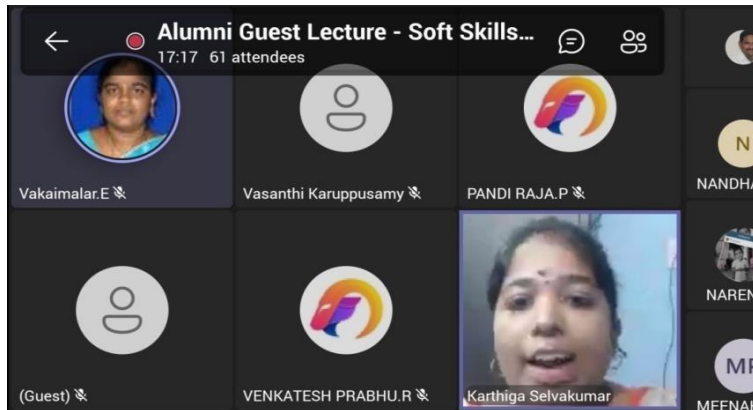

### Resource Person:

Mrs.P.Nishanthini(**Alumni**)  
SAP FICO Consultant, Infosys,  
Chennai

**Date** :28.08.2021

## SOFT SKILLS

### Resource Person:

Mrs S.Karthiga (**Alumni**)  
Technical Content Creator,  
FACE,  
Coimbatore

**Date** : 26.10.2021

## CRYPTOGRAPHY

**Resource Person:**

**Mr. Vijayakumar Kaliaperumal,**  
Consultant, TCS (Certified  
Information Systems  
Security Professional)

**Date : 24.12.2021**

## CAMPUS NETWORKING

**Resource Person:**

**Mr.S.Balasubramanian**  
System Administrator,  
KCET

**Date : 23.12.2021 & 24.12.2021**

## HARDWARE TROUBLESHOOTING

### Resource Person:

Mr.D.Sinagraj,  
Mr.M.Paranikumar  
Technician/IT  
KCET.

Date : 23 .12.2021& 24.12.2021

## GOAL SETTING

### Resource Person:

Mr. S. Sivanesh Kumar,  
Agile Coach / Scrum  
Master, WIPRO.

Date : 03.01.2022

## CURRENT TRENDS IN IT

### Resource Person:

Mr. M. Kesav Sundar,  
Technical Lead,  
Mithrasoft,  
Kovilpatty

Date : 22.01.2022

### FDP/Workshop/STTP/Certification Pogrammes attended

S.No	FDP/Worksh op/STT P etc. .	Name of the faculty	Name of the Programme	Date	Organizing Institution	Participated/ Presented
1.	FDP	Dr.P.Subathra	Design Thinking And Creativity For Educators	27.09.2021 - 1.10.2021	Vels Institute of science Technology and advanced studies	Participated
			ATAL FDP on Virtual/Augment ed Reality	29/11/2021 to 03/12/2021	Sipna College of Engineering and Technology, Amravati.	
			FDP on Digital Teaching Techniques	27.12.2021 - 31.12.2021	ICT Academy	
2.	FDP	Dr.E.Vakaimalar	Robotics and Artificial Intelligence	13.12.2021 - 17.12.2021	Manav Rachna International Institute of Research and Studies	Participated
			Course on AI Master Class	20.12.2021 to 23.01.2022	Pantech Prolabs India Limited	
			FDP on Deep Learning and Computer Vision	03.01.2022 to 07.01.2022	Manipal University, Jaipur	
3.	ATAL FDP	Dr. R. Arthy	Cyber Security and Blockchain	13.12.2021 to 17.12.2021	Gobal Academy of TechnologyPA	Participated
			Deep Learning for Natural Language Processing	15.11.2021 to 19.11.2021	Bhilai Institute of Technology Drug	

4.	FDP	Mrs D.Kayathri Devi	Advance AI Techniques with MATLAB – Applications and Challenges in Industry 4.0	24.09.2021 & 25.09.2021	DesignTech Systems Pvt. Ltd.,	Participated
			Role of AI in Software Fault Prediction	28th & 29 <sup>th</sup> Oct2021	Department of Computational Intelligence, SRM Institute of Science and Technology, Chennai	
			STTP on IoT and Machine Learning	03.12.2021 to 09.12.2021	JNTU, Hyderabad	
			FDTP on Computational Intelligence	24.01.2022-29.01.2022	Sri Ramakrishna Engineering College	
5.	FDP	Mrs V.Deepa priya	IoT	05/10/2021 - 09/10/2021	Institute of Technology Gopheswar	Participated
			Machine Learning using R	25/10/2021 - 29/10/2021	NITTTR, Kolkatta	
			ATAL FDP on “Data Science using Python”	15.11.2021 - 19.11.2021	University of Hydrabad	
			Application of Cryptographic Tools for Data and Image Securities	6.12.2021 - 10.12.2021	IIIT Kalyani	
			STTP on Intelligent Computing using python	22.12.2021 - 29.12.2021	SONA College of Engineering	
6.	ATAL FDP	D. Vendhan	ATAL FDP on Internet of Things (IoT)	08.11.2021 - 12.11.2021	Punjabi University Patiala	Participated
			ATAL FDP on Role of IOT in Cyber Security	29.11.2021 to 03.12.2021	LAKSHMI NARAIN COLLEGE OF TECHNOLOGY	

7.	FDP	Ms P Kaviya	PALS VLAB	06.09.2021 to 08.09.2021	NITK, Surathkal	Participated
			ATAL FDP on Advanced in Fog and Edge Computing Challenges and Research Directions	26/10/2021 to 30/10/2021	NIT, Skkim	
			ATAL FDP on “Introduction to cryptology”	24.11.2021 to 28.11.2021	NIT, Trichy	
8.	FDP	Mr C. Raj Kannan	ATAL FDP on Internet of Things	06-12-2021 to 10-12-2021	Center of e- governance, Rajasthan	Participated
			Course on AI Master Class	20.12.2021 to 23.01.2022	Pantech Prolabs India Limited	
9.	FDP	Mrs P.Priyadharshini	ATAL FDP on Advance Statistical and Machine learning models	15-12-2021 to 19-12-2021	Indian Institute of Information Technology, Ranchi	Participated
			PALS FDP on How teachers can make a difference	22.12.2021 to 24.12.2021	Teaching Learning Centre, IITM	
			DIGITAL TEACHING TECHNIQUES	27.12.2021 to 31.12.2021	ATOS Syntel, ICT Academy	
			FDP on Game theory and communication networks	10.01.2022- 14.01.202	IIT Vadora

## COMPANY PROFILE

**Cognizant**

Cognizant is an American multinational information technology services and consulting company. It is headquartered in Teaneck, New Jersey, United States. It was founded as an in-house technology unit of Dun & Bradstreet in 1994, and started serving external clients in 1996. But actual founders of Cognizant was Kumar Mahadeva and Francisco D'Souza at 1994.

On 20 Jan, 1994 Cognizant registered its branch in Chennai, Tamil Nadu, India with the legal name Cognizant Technology Solutions India Private Limited.

CEO of Cognizant is Brian Humphries. Revenue of Cognizant is US\$18.65 billion. The company has 318,400 employees globally, of which over 150,000 are in India across 10 locations with a plurality in Chennai. Average salary of an employee is 410,000 per annum. Cognizant doing Industry, Infrastructure Services, Security, Consulting types of project.

Cognizant is a leading provider of information technology, consulting, and business process outsourcing services, dedicated to helping the world's leading companies build stronger businesses.

Cognizant is very good place for working. They provide good training and seniors would also help us in growing our career. Work was more productive. Everyone are very friendly and not much pressure is there during work.

## THINK!!!

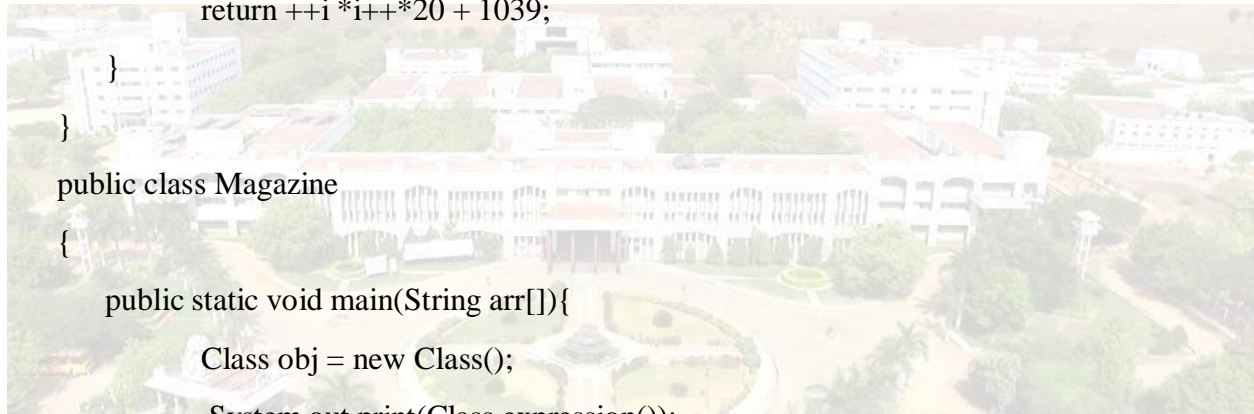

### QUESTION

1. What is the output of the following program?

```
class Class
{
    public String toString(){
        return " KCET";
    }
    static int expression() {
        int i=13;
        return ++i *i++*20 + 1039;
    }
}
public class Magazine
{
    public static void main(String arr[]){
        Class obj = new Class();
        System.out.print(Class.expression());
        System.out.println(obj);
    }
}
```

### **OUTPUT:**

## Find out

1. The process to gather the software requirements from client, analyze and document them is known as \_\_\_\_\_.
2. My Computer was introduced from \_\_\_\_\_.
3. To represent hierarchical relationship between elements, \_\_\_\_\_ data structure is suitable.
4. A Stack-organised Computer uses instruction of \_\_\_\_\_.
5. \_\_\_\_\_ terms is just the collection of networks that can be joined together
6. World's first cellular system was developed by \_\_\_\_\_.
7. \_\_\_\_\_ categories of functions involved in Data Mining.
8. The \_\_\_\_\_ passes the information given by the user to a specified program.
9. \_\_\_\_\_ is a part of network identification
10. Cohesion and coupling are represented by using \_\_\_\_\_.

## DevOps

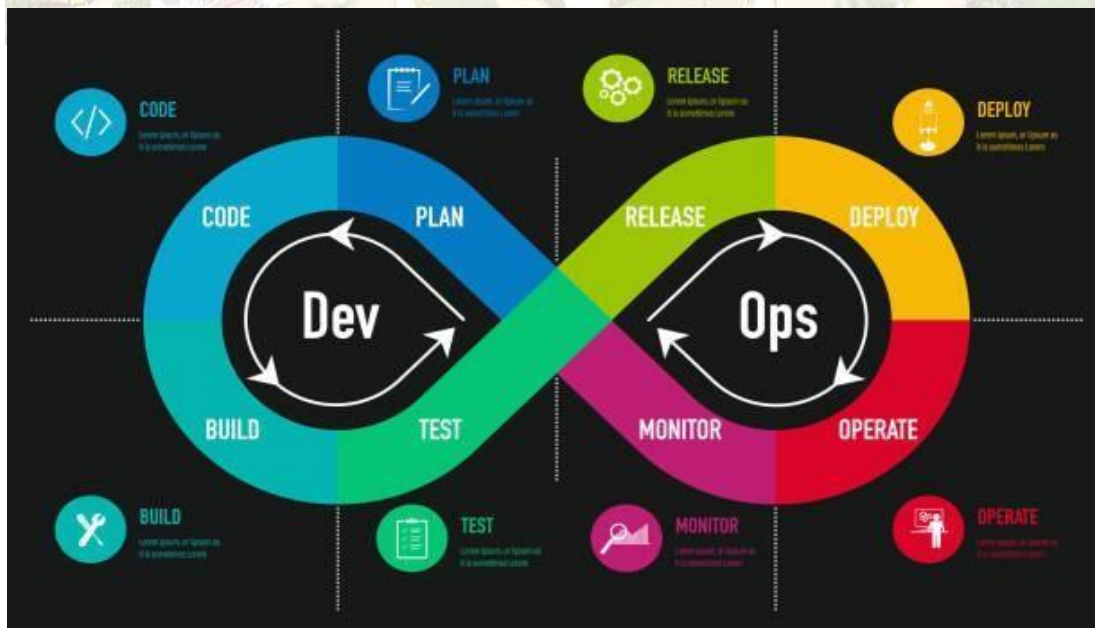

DevOps is an amalgamation of both Development and Operations. It is one of the latest trends in the market which triggers the rapid development and deployment of software applications.

It provides a compact and controllable automation's process by means of advanced tools, monitoring mechanisms and security configurations. With DevOps, we can make the development and Operation teams to work together on the same product.

### DevOps Methodology :

DevOps is not a specific framework or a technology, it's the concept that cover each and every culture that is being implemented, maintained and organized by the organization. It depends on various standards, processes and tools that are being used by the organization.

The Initial implementation of DevOps infrastructure in an organization deals with Continuous Integration and Continuous Delivery (CI/CD), Independent Development Platforms and Real-Time Monitoring of the system.

### **DevOps Concepts :**

- Increase Efficiency by means of Automation.
- Rapid Development and Secure maintenance of Software.
- Continuous Integration and Continuous Delivery.
- Secure End-to-End monitoring and Testing.

### **Scope Of DevOps :**

Automation will play a vital role in the future of DevOps and it will bring a greater concern on Cloud optimization technologies. The centralized culture of cloud technologies provides a stable platform for the software development processes. Based on the needs and latest trends DevOps will automate itself.

**Malik Chandra Pandian T,  
Devops Engineer,  
Centizen Inc,  
(2017-2021 Batch)**

## QUIZ- Solutions

1. 4959 KCET

2.

1. Requirement Engineering

2. Windows 95

3. Tree

4. Zero addressing

5. Intranet

6. Nippon Telephone and  
Telegraph (NTT)

7. 2

8. Web Server

9. User ID

10. Dependence matrix
